This material is copyright. It is based on the *Reality Search* workshop kit c/f www.realitysearch.com.au. The kit contains five explanatory Versions of an original Gospel Analysis in hard copy and on a colour CD. The Analysis sets out lists of social values in a step by step line of logic.

The kit also contains an introductory thesis showing that when the gospels were written there was need for a new paradigm of society. Problems similar to what the writers were dealing with in their own milieu are still around today.
